## Consider Partnering With United Way of Missoula County

Our work is about mobilizing the caring power of every individual to build a better community for all. Partnering with United Way of Missoula County is the best way to have the greatest impact.  
**It takes just one person, just one business, to change one life.**

### LOCAL IMPACT

UWMC improves lives by investing dollars in the areas of **education, income, and health**: the building blocks of a good life. We want to see our children and youth achieving their potential, that individuals and families are becoming financially stable, and that people are leading healthier lives.

### LONG-TERM RESULTS

UWMC does more than fund programs. We find innovative ways to address short-term individual needs while working toward long-term community solutions.

### POSITIVE RECOGNITION

When you support UWMC in your workplace, you'll join more than 100 area businesses helping us advance the common good in our community. Organizations are recognized throughout the year at our events and through our communications such as website, "thank you" ads, promotional announcements, etc.

### ORGANIZATIONAL PRIDE

Whether you participate in a workplace campaign, make a corporate contribution, sponsor an event or take advantage of volunteer opportunities, your partnership with UWMC will provide your organization and employees the opportunity to take on leadership roles, engage in teambuilding and grow morale.

### VOLUNTEER OPPORTUNITIES

Volunteering doesn't just improve lives in our community and advance the common good; it can also be a powerful personal and teamwork development tool for you and your employees. UWMC can help coordinate volunteer opportunities for your employees that reward them with a sense of giving back and help them grow personally and professionally.
